## **Introductory Section (Unaudited)**

# City of Tomball

*Gretchen Fagan  
Mayor*

*George Shackelford  
City Manager*

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Tomball, Texas:

It is with great pleasure that we present to you a copy of the Comprehensive Annual Financial Report (CAFR) of the City of Tomball, Texas (the City) for the fiscal year ended September 30, 2017. The responsibility for both the accuracy of the presented information and the completeness and fairness of the presentation of the data, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the results of operations of the various funds of the City, as well as the fund balances. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The CAFR is presented in three sections: Introductory, Financial, and Statistical. The Introductory Section includes this transmittal letter, the City's organizational chart, and a list of principal officials, elected and appointed. The Financial Section includes Management's Discussion and Analysis (MD&A), Basic Financial Statements, Required Supplementary Information, Combining and Individual Fund Financial Statements and Schedules, as well as the independent auditors' report. The Statistical Section includes selected financial and demographic information generally presented on a multi-year basis.

MD&A immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter and should be read in conjunction with it.

## **Profile of the Government**

The City, incorporated on July 18, 1933, is located northwest of Houston, Texas, in a rapidly growing area of Harris County. The City currently occupies a land area of 12.34 square miles and serves an estimated population of 11,643. The City of Tomball is empowered to levy a property tax on both real and personal properties located within its boundaries. It also is empowered by state statute to extend its corporate limits by annexation, which occurs when deemed appropriate by the governing council.

The City has operated under the Council-manager form of government since 1980. Policy-making and legislative authority are vested in a governing council consisting of the Mayor and five Council members. The Council is elected on a non-partisan basis. Council members serve three-year terms, with two Council members elected every year. The mayor is elected to serve a three-year term. The Mayor and Council are elected at large. The governing council is responsible for, among other things, passing ordinances, adopting the budget, appointing committees, and hiring both the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the governing Council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments.

The City provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; recreational activities and cultural events. Solid waste services are provided through a contract with Waste Corporation of America.

The annual budget serves as the foundation for the City's financial planning and control. All departments of the City are required to submit requests for appropriation to the Finance Director. These requests serve as a starting point for developing a proposed budget. The Finance Director provides the information to the City Manager who then presents this proposed budget to the Council for review. The Council is required to hold public hearings on the proposed budget and to adopt a final budget no later than September 30, the close of the City's fiscal year. The appropriated budget is prepared by fund, function, and department. Department heads may make requests to the City Manager for transfers of appropriations within a department. Transfers of appropriations between departments, however, require the approval of the City Council. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented on Page 57 as part of required supplementary information. For governmental funds, other than the general fund, with appropriated annual budgets, this comparison is presented in the nonmajor governmental fund subsection of this report, which starts on Page 62.

### **Factors Affecting Financial Condition**

The information presented in the financial statements is better understood when it is considered from the broader perspective of the specific environment within which the City of Tomball operates.

#### **Local Economy**

The City is located approximately 32 miles northwest of Houston and is primarily surrounded by various taxing districts, making it one of the only incorporated areas in this portion of Harris County. As a result, the City has evolved into the area's principal commercial center. Assessed values for Fiscal 2018 reflect an increase of 4.93 percent to \$1.83 billion. This property value increase is the result of continued commercial development within the City including both residential and commercial. New single-family residential development continues with the addition of several Public Improvement Districts.

Sales tax revenues increased 2 percent during fiscal year 2017. The City had anticipated this revenue source remaining level when the budget was adopted. At this writing, for fiscal year 2018, sales taxes are 14.44 percent higher than the first four months of fiscal year 2017. New residential and commercial development continues to increase through the City and the surrounding area.

The region (which covers an area within a five-mile radius from the center of the City) has an employed labor force of approximately 26,000. The largest groups of employers are in service and retail trade.

#### **Long-term Financial Planning**

Design and construction of Medical Complex Drive Segment 4B was in progress at year-end. Construction continued on the M121 drainage channel which was designed to mitigate flooding in the downtown area.

In conjunction with the Tomball Economic Development Corporation (TEDC), the City issued \$8,500,000 in Certificates of Obligation (May 2013) to finance the construction of infrastructure to service a new business park on the southeast corner of the City. This project was nearing completion at September 30, 2017, with the design of the entry-way sign in progress. The business park currently has two tenants.

As part of the expansion of Medical Complex Drive and the extension of Persimmon Street, the TEDC purchased three parcels of land on October 25, 2016.

Additionally, infrastructure projects for water, sewer, drainage, and natural gas distribution continue to be funded through the budget process. All capital projects and major infrastructure needs are reviewed periodically during the year to assess both the progress of construction and the actual versus projected costs.

### **Major Initiatives**

The largest revenue source in the General Fund is sales tax. The City has experienced significant commercial and retail growth over the last several years. However, because of the recession experienced in 2008-2009, the City continued a conservative approach in budgeting sales tax revenues. For fiscal year 2017, sales tax revenues were projected at \$10,800,000. Because of significant increases in this major revenue source during 2017, the projection of \$10,850,000 was made for fiscal year 2018.

The City made application to the Harris Galveston Area Council in 2015 for a grant to fund major improvements along FM 2920 (Main Street) from the downtown area to State Highway 249. At that time, the City Council approved local funding in the amount of \$3,000,000 to assist in expediting the project. The fiscal year 2018 budget includes funding in the amount of \$500,000 to begin surveying, engineering design, and the possible purchase of rights-of-way.

The Capital Project Fund includes major funding for park improvements, streets, sidewalks, and infrastructure for fiscal year 2018.

### **Financial Information**

The City's management team is responsible for establishing and maintaining internal controls designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal controls are designed to provide reasonable but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of the controls should not exceed the benefits likely to be derived and (2) the valuation of cost and benefits requires estimates and judgments to be made by management.

### **Budgeting Controls**

The City maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Activities of the General Fund, Debt Service Fund, Special Revenue Funds, Utility Fund, and Internal Service Funds are included in the annual operating budget. The TEDC, a component unit of the City, is budgeted separately. A capital improvement plan is approved each year by the City Council and funded through a separate capital projects fund. The level of budgetary control (*i.e.*, the level at which expenditures cannot legally exceed the appropriated amount) is established at the Department level within an individual fund. The City maintains an encumbrance accounting system as a means of accomplishing budgetary controls and a technique of budgetary "lock out" which will prevent a transaction from exceeding legally appropriated budgetary amounts. As demonstrated by the statements and schedules included in the financial section of this report, the City continues to meet its responsibility for sound financial management.

### **Debt Administration**

The City may issue General Obligation bonds that are approved by voters in a capital improvements plan. Certificates of Obligation can be used for major construction projects and for the financing of vehicles and equipment.

When available, sales tax revenue in excess of budgeted projections can be dedicated to one-time capital purchases.

### **Independent Audit**

The City Charter requires an independent audit of the accounts of the City by an independent auditor. The firm of BKD, LLP, Certified Public Accountants, has issued an unmodified (clean) opinion on the City of Tomball's financial statements for the year ended September 30, 2017. The independent auditor's report is located at the front of the financial section of this report.

### **Awards**

The Government Finance Officers' Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for the fiscal year ended September 30, 2016. This was the 27<sup>th</sup> consecutive year that the City has received this award. In order to be awarded the Certificate of Achievement, the City published an easily readable and efficiently organized Comprehensive Annual Financial Report. This report satisfies both generally accepted accounting principles and applicable legal requirements. The Certificate of Achievement is held for a period of one year only. Our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement requirements, and will be submitted to GFOA to determine its eligibility for another certificate.

The City also received the Distinguished Budget Presentation Award for the fiscal year beginning October 1, 2016. This is the ninth consecutive year that the City has received this award from the GFOA. The award is made to those cities whose budget presentations meet very stringent presentation guidelines. The budget document must be of the very highest quality that reflects both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's recommended practices on budgeting.

Last year, the City was also awarded the Leadership Award as part of the "Texas Transparency" program from the Texas Comptroller of Public Accounts. Two years ago, the State Comptroller's office revised the program to what is now called the "Five Star Rating Designation" for transparency. Under the new guidelines, the City recently received the 2<sup>nd</sup> Star of the Five Star format. This program involves publishing financial information such as CAFRs, budgets, and check registers to demonstrate transparency to both the citizens and other members of the public. The City is currently working to achieve the next two "Stars" for Contracts and Procurement and Economic Development.

### **Acknowledgements**

The preparation of this report would not have been possible without the efficient and dedicated services of the administrative staff of the City and the members of the Finance Department. We also would like to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report. Credit must also be given to the Mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Tomball's finances.

Respectfully submitted,

Glenn Windsor, CPA, CFE, CGFO  
Finance Director

## Independent Auditor's Report

The Honorable Mayor and  
Council Members of the  
City of Tomball, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Tomball, Texas (the City), as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

The Honorable Mayor and  
Council Members of the  
City of Tomball, Texas  
Page 2

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Tomball, Texas, as of September 30, 2017, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the general fund budgetary comparison schedule, and pension and other postemployment benefit information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Management's Discussion and Analysis

### Year Ended September 30, 2017

As Management of the City of Tomball, Texas (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2017. This information is not intended to be a complete statement of the City's financial condition. We recommend and encourage readers to consider the information presented here in conjunction with the additional information presented in the accompanying transmittal letter (Pages i-iv of this report), and the statistical section (Pages 73-94 of this report), as well as the annual budget found on the City's website at <http://www.ci.tomball.tx.us/>.

#### **Financial Highlights**

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$98,082,567 (net position). Included in this amount is the City's net investment in capital assets of \$73,817,981. The net position restricted for specific purposes totals \$3,912,411. The remaining \$20,352,175 is unrestricted net position which may be used to meet the City's ongoing obligations to citizens and creditors in accordance with the City's fiscal policies. The City's net position increased by \$3,195,402 during the current fiscal year.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$55,912,945, an increase of \$23,057,195 from the prior year. The significant increase is attributed to the issuance of debt which will be used for capital outlays in the future. Approximately 76 percent of this amount (\$42,711,890) is restricted by specific legal requirements such as bond instruments and related debt covenants and 23 percent of this amount (\$13,021,273) is available for spending at the government's discretion (unassigned fund balance).
- The City's debt increased by \$16,523,877 primarily due to the issuance of certificates of obligation during the year partially offset by existing debt retirements.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise four components: 1) government-wide financial statements, 2) fund financial statements, 3) notes to the financial statements and 4) required supplementary information which includes this management's discussion and analysis and multi-year funding progress on the City's pension plan and retiree health plan. This report also contains other supplementary information as listed in the table of contents in addition to the basic financial statements themselves.

**Government-wide Financial Statements** – The government-wide financial statements are designed to provide readers with a broad overview of the City's finance, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources, with the difference reported as net position.

Over time, increases or decreases in net position serve as useful indicators of whether the financial position of the City is improving or deteriorating. This statement combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the City's property tax base and the condition of the City's infrastructure (*i.e.*, roads, drainage improvements, storm sewer, gas distribution, water distribution and sewer collection lines, etc.), to assess the overall financial condition of the City.

The statement of activities presents information showing how the City's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (*e.g.*, uncollected taxes and earned but not used compensated absences). Both the statement of net position and the statement of activities are prepared utilizing the accrual basis of accounting as opposed to the modified accrual basis used in the governmental fund statements.

The government-wide financial statements include not only the City of Tomball itself (known as the primary government), but also a legally separate economic development corporation for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees (business-type activities). The governmental activities include most of the City's basic services, (general government, public safety, public works and community development). Property taxes, sales taxes and franchise fees primarily finance these activities. The business-type activities include the City's water, sewer and gas system. Charges for services cover all or most of the costs for these services. Component unit activities include activities of The Tomball Economic Development Corporation.

**Fund Financial Statements** – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used by state and local governments to control and manage money for particular purposes and to ensure finance-related legal requirements. The City uses two fund types – governmental and proprietary.

**Governmental Funds** – Governmental funds are used to account for similar functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds focus on current sources and uses of spendable resources. The governmental fund statements provide a detailed short-term view of the City's general government operations and help you to determine whether resources are available in the near future to finance City programs. Comparing the information presented for governmental funds with the information presented for governmental activities in the government-wide financial statements will help the reader to better understand the long-term impact of the government's near-term financing decisions.

The governmental funds balance sheet and statement of revenues, expenditures and changes in fund balances include a reconciliation to provide such comparison.

The City maintains 11 governmental funds. Information is presented separately in the governmental funds balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, the debt service fund and the capital projects fund; these funds are considered to be major funds. The other eight funds are combined into a single, aggregated presentation.

Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements found in this report.

**Proprietary Funds** – The City maintains two types of proprietary funds. The City uses the Enterprise Fund for water, sewer and gas operations. The Enterprise Fund reports the same functions presented as business-type activities in the government-wide financial statements. The second proprietary fund is the Internal Service Fund. This fund is used to account for fleet replacements and employee benefits. The Internal Service Fund is included within the governmental activities in the government-wide financial statements.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, with more detail, and include the Internal Service Fund type activity.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other Information** – In addition to the basic financial statements and accompanying notes, the basic financial statements contain required supplementary information including this discussion and analysis and information concerning the City's progress in funding its obligations to provide pension and retiree health benefits to its employees.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the required supplementary information on pensions and other post-employment benefits (OPEB) and the general fund budget to actual schedule. Combining and individual fund statements and schedules can be found on Pages 60-72 of this report.

### Government-wide Financial Analysis

As noted earlier, net position over time, may serve as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$98,082,567 at the close of the most recent fiscal year.

	Net Position					
	Governmental Activities		Business-type Activities		Total	
	2017	2016	2017	2016	2017	2016
Current and other assets	\$ 60,698,922	\$ 38,994,974	\$ 11,456,010	\$ 14,139,500	\$ 72,154,932	\$ 53,134,474
Capital assets	49,744,458	48,693,580	35,930,672	36,259,055	85,675,130	84,952,635
Total assets	110,443,380	87,688,554	47,386,682	50,398,555	157,830,062	138,087,109
Deferred outflows of resources	2,273,686	2,700,657	439,551	453,549	2,713,237	3,154,206
Noncurrent liabilities	50,682,482	33,442,730	3,721,873	4,210,353	54,404,355	37,653,083
Other liabilities	5,854,385	6,523,989	2,080,991	2,130,244	7,935,376	8,654,233
Total liabilities	56,536,867	39,966,719	5,802,864	6,340,597	62,339,731	46,307,316
Deferred inflows of resources	102,610	40,123	18,391	6,711	121,001	46,834
Net position:						
Net investment in capital assets	40,779,628	34,220,115	33,038,353	33,059,434	73,817,981	67,279,549
Restricted	3,912,411	5,821,510	-	-	3,912,411	5,821,510
Unrestricted	11,385,550	10,340,744	8,966,625	11,445,362	20,352,175	21,786,106
Total net position	\$ 56,077,589	\$ 50,382,369	\$ 42,004,978	\$ 44,504,796	\$ 98,082,567	\$ 94,887,165

The largest portion of the City's net position (75 percent) reflects its investments in capital assets (e.g., land, buildings, equipment, improvements, construction in progress and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; therefore, these assets are not available for future spending. It should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (4 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$20,352,175 is unrestricted and may be used to meet the government's ongoing obligations to its citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all reported categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Combined governmental and business-type activities increased the City's net position by \$3,195,402 in 2017. The following table provides a summary of the City's operations for the year ended September 30, 2017. Governmental activities increased the City of Tomball's net position by \$5,695,220. This increase is primarily related to interfund transfers to the capital projects fund, increased investment income, an increase in operating grants and contributions of \$876,046, partially offset by increases in public safety and public works expenditures and an increase in interest on long-term debt due to the issuance of the 2016 Certificates of Obligation. Business-type activities decreased the City's net position by \$2,499,818. This decrease is related primarily to the funding of system infrastructure through interfund transfers to the capital projects fund.

### **Financial Analysis of the Government's Funds**

**Governmental Funds** – The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City's Council.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$55,912,945. Approximately 23 percent of this amount (\$13,021,273) is unassigned fund balance and \$164,826 is assigned. Additionally, \$42,726,846 is non-spendable or restricted as follows:

Non-spendable (.03%):	
Prepaid items	\$ 14,956
Restricted (76%):	
Debt service	\$ 4,562,240
Construction	36,873,425
Enabling legislation	1,276,225

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$13,021,273, while total fund balance was \$13,060,996. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures. Both unassigned and total fund balance represent approximately 67 percent of total general fund expenditures. In the general fund, fund balance decreased by \$231,785. This decrease was primarily due to a planned reduction in the fund balance through the process of maintaining the current tax rate and cash funding a portion of both capital and operating

expenditures. The charter requires a "reserve" balance of 25 percent of annual expenditures and the general fund currently exceeds that level. Because of unexpected federal grants related to Hurricane Harvey in late August, revenues exceeded final projections. Expenditures in several departments, Human Resources, Sanitation and Community Development, were significantly less than final budget.

The debt service fund balance, a major fund, increased by \$227,442 primarily from an increase in property tax revenues.

The capital projects fund, a major fund, had a \$23,377,728 increase in fund balance during the current fiscal year due to the issuance of certificates of obligation, resulting in an ending fund balance of \$36,873,425 as of September 30, 2017.

**Proprietary Fund** – The City proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the enterprise fund is \$8,812,139 and unrestricted net position of the internal service fund is \$3,049,496 at September 30, 2017. The net position of the enterprise fund decreased \$2,232,704 primarily due to transfers to fund infrastructure projects in the capital projects fund. Net position of the internal service fund decreased \$59,354. This was due primarily due to an increase in the cost of providing healthcare to employees.

**General Fund Budgetary Highlights** – The City budgeted a net decrease in fund balance of the general fund of \$1,098,411 for the year ended September 30, 2017. The actual decrease in the general fund ending fund balance for the year ended September 30, 2017, was \$231,785, a favorable variance of \$866,626 due to unexpected federal grants related to Hurricane Harvey increasing the revenues and several departments (mentioned in the above paragraph) having significantly less expenditures than final appropriations.

### Capital Assets

The City of Tomball's investment in capital assets (net of accumulated depreciation) for its governmental and business-type activities as of September 30, 2017, is \$85,675,130. The investment in capital assets includes land, buildings and improvements, equipment, infrastructure and construction in progress.

	<b>Capital Assets</b>

Total capital assets	<u>\$ 49,744,458</u>	<u>\$ 48,693,580</u>	<u>\$ 35,930,672</u>	<u>\$ 36,259,055</u>	<u>\$ 85,675,130</u>	<u>\$ 84,952,635</u>

Additional information on the City's capital assets can be found in the notes on Pages 37 through 40 of this report.

**Debt Administration**

At the end of the current fiscal year, the City had a total bonded debt and capital lease obligations of \$47,545,019.

	Outstanding Debt					
	Governmental Activities		Business-Type Activities		Total	
	2017	2016	2017	2016	2017	2016
General obligations	\$ 5,887,500	\$ 7,165,750	\$ 2,832,500	\$ 3,429,250	\$ 8,720,000	\$ 10,595,000
Certificates of obligation	38,165,000	19,695,000	-	-	38,165,000	19,695,000
Capital leases	660,019	731,142	-	-	660,019	731,142
Total	\$ 44,712,519	\$ 27,591,892	\$ 2,832,500	\$ 3,429,250	\$ 47,545,019	\$ 31,021,142

The City's total debt increased by \$16,523,877 (53 percent) during the current fiscal year due to the issuance of certificates of obligations offset partially by existing debt retirements.

The City's most recent bond ratings are listed below:

	Standard & Poor's	Moody's
General obligation bonds	AA+	
Certificates of obligation	AA+	Aa3

Additional information on the City's outstanding debt can be found on Pages 40 through 42 of this report.

**Economic Factors and Next Year's Budgets and Rates**

Tomball continues to experience growth, both within the corporate City limits and the surrounding area. The City's current population is estimated to be 11,643. However, within a three-mile radius it is estimated to be 15,789. Within a five-mile radius, the estimate rises to 77,560.

The City is continuing to focus on economic development initiatives, including the revitalization of the historic downtown area and the continuing development of two major retail developments on the west side of the City. Residential development continues throughout the City.

The City's largest source of revenue continues to be sales taxes. During the fiscal year, the City experienced an increase in this resource of 2 percent. This increase continues into fiscal year 2018 with increases of over 14 percent for the first few months after fiscal year 2017 year-end. City management continues to closely monitor sales tax revenues and will budget accordingly to ensure that financial goals and objectives are achieved.

This past year, the City annexed an area on the south side of the City near the Grand Parkway and State Highway 249. At September 30, 2017, commercial construction had not begun but is to include several large retail stores and restaurants. Additional development continues within the City and is expected to continue with the growth that is taking place in the Tomball area.

The City's largest taxpayer is now North Houston TRMC, which encompasses the medical center in the center of the City. Growth in this area is expected to continue in fiscal year 2018.

The ad valorem property tax rate remained at \$0.341455, one of the lowest in Harris County.

Pursuant to the City's financial management policy, fund balances in all funds exceeded the charter requirement of 25 percent of annual expenditures.

For fiscal year 2018, the City expects increased sales tax revenues but no changes to the existing tax rates or utility fees. A comprehensive rate analysis was in progress at year-end. Construction will continue on several capital projects, including the extension of Medical Complex Drive, Section 4B and the M-121 drainage channel.

### **Contacting the City's Financial Management**

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to: Finance Department, 501 James Street, Tomball, Texas, 77375, telephone 281.351.5484, or for general City information, please visit the City's website at <http://www.ci.tomball.tx.us/>.

<b>Total fund balances - governmental funds</b>		\$ 55,912,945
Amounts reported for the governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.		48,808,448
Deferred loss on issuance of refunding bonds is not recorded in the fund financial statements but is recorded as a deferred outflow of resources on the statement of net position.		215,263
The liability for other post employment benefits does not require the use of current financial resources and is, therefore, not recorded in the governmental fund financial statements.		(873,955)
The net pension liability and related deferred outflows and inflows of resources do not require current financial resources and, therefore, are not reported in the governmental funds balance sheet.		
	Net pension liability	\$ (5,707,343)
	Deferred outflows, pensions	2,058,423
	Deferred inflows, pensions	<u>(102,610)</u>
		(3,751,530)
Interest payable on long-term debt does not require current financial resources; therefore, interest payable is not reported as a liability in the governmental funds balance sheet.		(152,088)
Internal service funds are used by management to charge the cost of certain activities, such as fleet management, to individual funds. A portion of the assets and liabilities of the internal service funds are included in the governmental activities in the statement of net position.		3,831,019
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the fund financial statements.		
	Bonds payable	(44,052,500)
	Capital lease payable	(660,019)
	Landfill post closure costs	(402,500)
	Compensated absences payable	(1,608,583)
	Premiums received on issuance of bonds	<u>(1,188,911)</u>
		<u>(47,912,513)</u>
<b>Net position of governmental activities</b>		<u><u>\$ 56,077,589</u></u>

**Changes in Fund Balances – Governmental Funds to the**  
**Government-wide Statement of Activities**  
**Year Ended September 30, 2017**

**Net change in fund balances – total governmental funds** \$ 23,057,197

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period. 1,185,652

The issuance of long-term debt (e.g., bonds, capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of bond premiums, discounts and similar items when debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. The effect of these differences in the treatment of long-term debt and related items was:

Issuance of long-term debt	\$ (20,240,000)	
Premium on issuance of long-term debt	(911,687)	
Repayment of long-term debt	3,119,373	
Amortization of premiums on bonds payable	91,727	
Amortization of deferred loss on refunding	<u>(59,673)</u>	(18,000,260)

Current year changes in other long-term liabilities do not require the use of current financial resources; therefore, are not reported as expenditures in governmental funds.

Compensated absences	(163,454)	
Landfill post-closure costs	(23,000)	
Other post employment benefits	<u>(100,581)</u>	(287,035)

Current year changes in accrued interest payable do not require the use of current financial resources; therefore, are not reported as an expenditure in the governmental funds. (34,817)

The net change in the pension-related deferred outflows and inflows of resources and net pension liability do not require the use of current financial resources; therefore, are not reported as expenditures in the governmental funds. (433,276)

An internal service fund is used by management to charge the cost of certain activities, such as fleet management, to individual funds. A portion of the change in net position of the internal service funds is included in governmental activities in the statement of activities. 207,759

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

**Note 1: Nature of Operations and Summary of Significant Accounting Policies**

***Financial Reporting Entity***

The City of Tomball, Texas (the City) was incorporated on July 18, 1933. The City has operated under a "Home Rule Charter," which provides for a Council-City Manager form of government, since 1987. The City Council is the principal legislative body of the City.

The City Manager is appointed by a majority vote of the City Council and is responsible to the Council for the administration of all the affairs of the City. The City Manager is responsible for the appointment and removal of department directors and employees, supervision and control of all City departments, and preparation of the annual budget.

The City provides the following services: public safety to include police and fire services; municipal court; streets; drainage; water and sewer services; gas services; solid waste collection and disposal; community development; and general administration.

The City is an independent political subdivision of the State of Texas governed by an elected council and a mayor and is considered a primary government. As required by accounting principles generally accepted in the United States of America (GAAP), these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations or functions as part of the City's financial reporting entity. The Tomball Economic Development Corporation, Employee Benefits Trust and Tomball Legacy Fund, Inc., although legally separate organizations, are considered part of the reporting entity. No other entities have been included in the City's reporting entity. Additionally, as the City is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations, or functions in the City's financial reporting entity are based on criteria prescribed by GAAP. These same criteria are evaluated in considering whether the City is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the City's financial reporting entity status is that of a primary government are that it has a separately elected governing body; it is legally separate; and it is fiscally independent of other state and local governments. Additionally, prescribed criteria under GAAP include considerations pertaining to organizations for which the primary government is financially accountable and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

***Discretely Presented Component Unit***

Tomball Economic Development Corporation – This Corporation was formed in 1994 pursuant to the *Development Corporation Act of 1979* (the Act), governed under Section 4B of the Act. It receives and utilizes the proceeds of a one-half cent sales tax to promote and assist in the economic development of the City. The seven directors of the Corporation are appointed by the governing body of the City. Directors are removable by the governing body of the City at any time without cause. Financial information for the Tomball Economic Development Corporation may be obtained from the following address:

Tomball Economic Development Corporation  
401 West Market Street  
Tomball, Texas 77375

***Blended Component Units***

*Health Benefits Fund* – The Health Benefits Fund accounts for the Employee Benefits Trust (the Trust) and has been included in the reporting entity as a blended component unit. The Trust is a not-for-profit entity and is organized under Section 222.002(c)(5) of the Texas Insurance Code. The Trust's Board of Trustees are members of the City Council. The Trust is organized for the purpose of providing or offering City officers, employees and qualified retirees and their dependents with life, disability, sickness, accident and other health benefits either directly or through the purchase of insurance. The operations of the Trust are presented as a proprietary fund type in an internal service fund.

*Tomball Legacy Fund, Inc.* – Tomball Legacy Fund, Inc. has been included in the reporting entity as a blended component unit. Tomball Legacy Fund, Inc. is a not-for-profit 501(c)3 foundation managed by a seven-member Board of Directors consisting of the Mayor and City Council of the City, plus one appointed individual. Tomball Legacy Fund, Inc. was established to allow the City to receive private and corporate grant funds to be used on behalf of the City. The operations of Tomball Legacy Fund, Inc. are presented as a governmental fund type as a special revenue fund.

***Government-wide and Fund Financial Statements***

The government-wide financial statements (*i.e.*, the statement of net position and the statement of activities) report information about the City as a whole. These statements include all activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs and grants that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, such as taxes and investment earnings, are presented as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. In the fund financial statements, the accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred outflows and inflows of resources, fund equity, revenues, and expenditures or expenses, as appropriate. Following is a description of the various funds:

***Governmental Funds***

Governmental funds are those funds through which most governmental functions are typically financed.

**General Fund**

The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The principal sources of revenues include local property taxes, sales and franchise taxes, licenses and permits, fines and forfeitures, and charges for services. Expenditures include general government, public safety, public works, parks and recreation, and community development.

**Special Revenue Funds**

The special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The special revenue funds include Special General Fund, Housing Trust Fund, Court Security Fund, Court Technology Fund, Hotel Occupancy Tax Fund, Red Light Camera Fund, Bunny Run Fund and Tomball Legacy Fund, Inc. The special revenue funds are considered nonmajor funds for reporting purposes.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

**Debt Service Fund**

The debt service fund is used to account for and report the payment of interest and principal on all general obligation bonds and other long-term debt of the City. The primary source of revenue for debt service is local property taxes. The debt service fund is considered a major fund for reporting purposes.

**Capital Projects Fund**

The capital projects fund is used to account for and report the expenditures of resources accumulated from sales tax revenues and the sale of bonds and related interest earnings for capital improvement projects. The capital projects fund is considered a major fund for reporting purposes.

***Proprietary Funds***

Proprietary funds are used to account for activities that are similar to those often found in the private sector. All assets, liabilities, deferred outflows and inflows of resources, net position, revenues, expenses and transfers relating to the government's business-type activities are accounted for through proprietary funds. The proprietary funds used by the City include the following:

**Enterprise Fund**

The enterprise fund is used to account for the operations that provide water and wastewater collection, wastewater treatment operations and gas. The services are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses including depreciation) of providing goods or services to the general public on a continuing basis will be financed or recovered primarily through user charges. The enterprise fund is considered a major fund for reporting purposes.

**Internal Service Funds**

Internal service funds account for services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. The fleet replacement and health benefits funds are used to account for vehicle and equipment replacement and employee benefits.

***Measurement Focus and Basis of Accounting***

The government-wide statement of net position and statement of activities and all proprietary funds are accounted for with a flow of economic resources measurement focus on the accrual basis of accounting. With this measurement focus, all assets and deferred outflows of resources, and all liabilities and deferred inflows of resources associated with the operations of these

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

activities are included on the statement of net position. Proprietary fund equity consists of net position. Proprietary fund operating statements present increases (*i.e.*, revenues) and decreases (*i.e.*, expenses) in changes in net position.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (*i.e.*, revenues and other financing sources) and decreases (*i.e.*, expenditures and other financing uses) in net change in fund balances.

The City uses the modified accrual basis of accounting in the governmental funds. Under the modified accrual basis of accounting, revenues are recognized in the accounting period when they are susceptible to accrual (*i.e.*, when they are measurable and available). Measurable means the amount of the transaction can be determined, and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues available if they are collected within 60 days of the end of the current period.

Property taxes, sales taxes, franchise taxes and interest associated with the current period are all considered to be susceptible to accrual, and have been recognized as revenues of the current period. Other receipts and other taxes become measurable and available when cash is received by the government, and are recognized as revenue at that time.

Under modified accrual accounting, expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for interest on general long-term debt, which is recognized when due.

The accrual basis of accounting is used for the proprietary fund types. The statement of net position, statement of activities and financial statements of proprietary fund types are presented on the accrual basis of accounting. Under this method of accounting, revenues are recognized in the accounting period in which they are earned, and expenses in the accounting period in which they are incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's proprietary funds are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

***Deposits and Investments***

The City maintains a pooled cash and investment account. Each fund whose monies are deposited in the pooled cash and investment account has equity therein, and interest earned on the investment of these monies is allocated based upon relative equity at month-end. Amounts on deposit in interest-bearing accounts and other investments are displayed on the financial statements as cash and cash equivalents.

The City reports all investments at fair value, with the exception of investments in local government investment pools. The carrying value of investments in local government investment pools is determined by the valuation policy of the investment pool, either at amortized cost or net asset value of the underlying pool shares, as further described in Note 3.

The City has adopted a written investment policy regarding the investment of its funds as defined in the *Public Funds Investment Act*, Chapter 2256, Texas Governmental Code.

In summary, the City is authorized to invest in the following:

1. Obligations of the United States or its agencies and instrumentalities;
2. Direct obligations of the State of Texas or its agencies and instrumentalities;
3. Collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States;
4. Other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of, the State of Texas or the United States or their respective agencies and instrumentalities;
5. Obligations of states, agencies, counties, cities and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent;
6. Certificates of deposit, repurchase agreements and commercial paper that meet certain criteria; and
7. An eligible investment pool authorized by the governing body.

***Property Taxes***

Property taxes are levied during October of each year and are due upon receipt of the City's tax bill. Taxes become delinquent, with an enforceable lien on property, on February 1 of the following year.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

***Receivables***

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "interfund receivables/payables" (*i.e.*, the current portion of interfund loans) or "advances to/from other funds" (*i.e.*, the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds" in the fund financial statements. If the transactions are between the primary government and its component unit, these receivables and payables are classified as "due to/from component unit/primary government." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade receivables are shown net of an allowance for uncollectibles.

***Inventory and Prepaid Items***

The costs of inventory are recorded as expenditures when the related liability is incurred (*i.e.*, the purchase method). Certain payments to vendors reflect costs applicable to future accounting periods (prepaid expenditures), and are recognized as expenditures when utilized.

***Capital Assets***

Capital assets, which include property, plant, equipment and infrastructure (*e.g.*, roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statement. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Interest costs incurred in connection with construction of proprietary fund capital assets are capitalized when the effects of capitalization materially impact the financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful years.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

Buildings and improvements	20-50 years
Machinery and equipment	3-10 years
Vehicles	5 years
Water, sewer and gas system	20-30 years
Infrastructure	40-50 years

***Compensated Employee Absences***

It is the City's policy to permit employees to accumulate earned but unused vacation, sick pay benefits and compensatory time. Amounts accumulated, up to certain limits, may be paid to employees upon termination of employment. The estimated amount of compensation for services provided that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it when it matures or becomes due. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are recorded on the government-wide statement of net position and represent a reconciling item between the fund and government-wide presentations. The estimated amount of compensation for services provided that is expected to be liquidated in future years is reported as an expense and a fund liability of the proprietary fund that will pay it when it matures or becomes due.

***Long-term Obligations***

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. The long-term debt consists primarily of bonds payable and accrued compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements until due. The debt proceeds are reported as other financing sources, net of the applicable premium or discount, and payments of principal and interest are reported as expenditures. Claims and judgments paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources.

Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate fund's financial statements. For proprietary fund types, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount.

The property tax rate is allocated each year between the general and debt service funds. The full amount estimated to be required for debt service on general obligation debt is provided by the tax along with interest earned in the debt service fund. Though a portion of the general obligation

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

debt was directly related to the purchase of water and sewer infrastructure, the debt service expenditures are included in the governmental fund financial statements as they are expected to be paid from debt service tax revenues instead of water system revenues.

Assets acquired under the terms of capital leases are recorded as liabilities and capitalized in the government-wide financial statements at the present value of net minimum lease payments at inception of the lease. In the year of acquisition, capital lease transactions are recorded as other financing sources and as capital outlay expenditures in the applicable governmental fund financial statements. Lease payments representing both principal and interest are recorded as expenditures in the general fund upon payment with an appropriate reduction of principal recorded in the government-wide financial statements.

***Landfill Post-closure Care Costs***

The City reports municipal solid waste landfill costs in accordance with Governmental Accounting Standards Board (GASB) Statement No. 18, *Accounting for Municipal Solid Waste Landfill Closure and Post-Closure Care Costs*. The liability for landfill post-closure costs is reported as long-term debt.

***Pensions***

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

***Deferred Inflows and Outflows of Resources***

The City presents deferred outflows and inflows of resources in accordance with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65), which establish accounting and financial reporting standards that reclassify, as deferred outflows and inflows of resources, certain items that were previously reported as assets and liabilities. In accordance with GASB 65, deferred inflows of resources represent an acquisition of resources that applies to a future period and, therefore, will not be recognized as an inflow of resources (revenue) until that time. Deferred outflows of resources represent a consumption of resources that applies to a future period and, therefore, will not be recognized as an outflow of resources (expense/expenditure) until that time. The City has the following items that qualify for reporting in this category.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

***Government-wide***

- Deferred charges on refundings – A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Pension contributions after measurement date – These contributions are deferred and reported as a reduction in net pension liability or increase in net pension asset in the year subsequent to their deferral.
- Difference between projected and actual earnings on pension investments – This difference is deferred and amortized to pension expense over a closed five-year period.
- Difference in expected and actual pension experience – This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the beginning of the measurement period.
- Change of assumptions – This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the beginning of the measurement period.

***Fund***

Resources unavailable for revenue recognition are deferred and recognized as revenue when available.

***Fund Equity***

**Government-wide and Proprietary Fund Net Position**

Net position on the statement of net position includes the following categories:

*Net Investment in Capital Assets* – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

*Restricted* – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

*Unrestricted* – This component of net position consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

**Governmental Funds Fund Balance**

Fund balances of governmental funds are classified as follows:

*Nonspendable Fund Balance* – Represents amounts that cannot be spent because they are either in nonspendable form (such as inventory or prepaid costs) or are legally required to remain intact (such as principal of a permanent fund).

*Restricted Fund Balance* – Represents amounts that are constrained by external parties, constitutional provisions or by enabling legislation.

*Committed Fund Balance* – Represents amounts constrained to specific purposes by the City itself, using its highest level of decision-making authority (*i.e.*, City Council). To be reported as committed, amounts cannot be used for any other purpose unless the City takes the same highest level action to remove or change the constraint. The commitment must be made prior to year-end.

*Assigned Fund Balance* – Represents amounts the City intends to use for a specific purpose. Fund balance can be assigned by the City Manager, pursuant to the City's fund balance policy. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund. Assignments can be made at any time.

*Unassigned Fund Balance* – Represents amounts that are available for any purpose. Positive amounts are reported only in the general fund. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted net position/fund balance first, then unrestricted net position/fund balance. Furthermore, when an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the City considers amounts to have been spent first out of committed, then assigned funds, and finally unassigned funds.

The City Council is the government's highest level of decision-making authority and the formal action that is required to be taken to establish, modify or rescind a fund balance commitment is a resolution approved by the Council. The resolution must either be approved or rescinded, as applicable, prior to the last day of the fiscal year for which the commitment is made. The amount subject to the constraint may be determined in the subsequent period.

The Council has also authorized the City Manager to assign fund balance. Assignments of fund balance by the City Manager do not require formal action by the City Council.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

The City strives to maintain an unassigned fund balance of not less than 25 percent of the budgeted operational expenditures in all City funds. Due to the volatile nature of a majority of its revenues, it is not deemed excessive for the City to maintain an unassigned fund balance in the general fund at levels greater than 33 percent of the budgeted operational expenditures. The purpose of this unassigned balance is to alleviate significant unanticipated budget shortfalls and to ensure the orderly provisions of services to citizens. Should unassigned fund balance fall below the goal or have a deficiency, the City will seek to reduce expenditures prior to increasing revenues to replenish fund balance within a reasonable timeframe.

***Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

**Note 2: Stewardship, Compliance and Accountability**

Annual budgets are legally adopted on a basis consistent with GAAP for the general fund, debt service fund, court security fund, court technology fund, hotel occupancy tax fund and the special general fund. All other adopted budgets are used as a management tool. The original budget is adopted by the City Council prior to the beginning of the year. The legal level of control as defined by the charter in the approved budget is the department level in the general fund, and all others are the fund level. The City Manager may transfer appropriations between divisions within a department without seeking the approval of City Council. Appropriations lapse at the end of the year.

***Excess of Expenditures Over Appropriations***

General fund:		
Legal	\$	7,704
Emergency management		257,624 *
ESD #15 - Station 5		6,230
Public works administration		285
Facilities maintenance		9,231

\*Emergency management include expenditures related to Hurricane Harvey which was not planned for in the original budget.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

**Note 3: Deposits and Investments**

Deposits and investments as of September 30, 2017, are classified in the accompanying financial statements as follows:

Governmental activities	\$ 57,960,342
Business-type activities	9,578,166
Component unit	13,444,277
Total	\$ 80,982,785

Deposits and investments as of September 30, 2017, consist of the following:

	City	Component Unit	Total
Deposits with financial institutions	\$ 1,398,888	\$ 144,239	\$ 1,543,127
Investments	66,139,620	13,300,038	79,439,658
Total	\$ 67,538,508	\$ 13,444,277	\$ 80,982,785

***Disclosures About Fair Value of Assets and Liabilities***

Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1**     Quoted prices in active markets for identical assets or liabilities.
- Level 2**     Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3**     Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

The following table presents the fair value measurements of assets recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at September 30, 2017.

	<b>September 30, 2017</b>			
	<b>Fair Value Measurements Using</b>			
	<b>Fair Value</b>	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>
Investments by fair value level:				
Municipal bonds	\$ 7,233,909	\$ -	\$ 7,233,909	\$ -
U.S. agencies	2,490,593	-	2,490,593	-
Total investments by fair value level	9,724,502	\$ 0	\$ 9,724,502	\$ 0
Investments measured at amortized cost:				
TexPool	61,415,820			
Investments measured at net asset value:				
Texas CLASS	8,299,336			
	69,715,156			
Total investments	\$ 79,439,658			

Municipal bonds and U.S. Agency Securities and are classified in Level 2 of the fair value hierarchy and are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities relationship to benchmark quoted prices.

**Investment Pools**

The City is a voluntary participant in TexPool. The State Comptroller of Public Accounts exercises responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management and accountability for fiscal matters. The State Comptroller has established an advisory board composed of both participants in TexPool and

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

others not otherwise associated. TexPool uses amortized cost rather than the market value to report net position to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the net asset value of TexPool shares.

The City is invested in Texas Cooperative Liquid Assets Securities System (Texas CLASS) Trust. Texas CLASS was created as an investment pool for its participants pursuant to Section 2256.016 of the *Public Funds Investment Act*, Texas Government Code, or other laws of the State of Texas governing the investment of funds of a participant or funds under its control. Texas CLASS is administered by Public Trust Advisors, LLC with Wells Fargo Bank Texas, N.A., as the custodian and is supervised by a Board of Trustees who are elected by the participants.

The investment pools do not have any limitations or restrictions on withdrawals, such as notice periods or maximum transaction amounts, and do not impose any liquidity fees or redemption gates.

***Custodial Credit Risk***

In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned. State statutes require that all deposits in financial institutions be fully collateralized by U.S. Government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a fair value of not less than the principal amount of deposits. As of September 30, 2017, all of the City's and component unit's combined balance on deposit with financial institutions was fully collateralized with securities held by the pledging financial institution in the City's name.

***Interest Rate Risk***

In compliance with the City's Investment Policy, as of year-end, the City minimized the interest rate risk related to the decline in market value of securities due to rising interest rates in the portfolio by limiting the effective duration of security types not to exceed four years, with the exception of securities purchased related to reserve funds; structuring the investment portfolio so that securities matured to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the secondary market prior to maturity; monitoring credit ratings of portfolio positions to assure compliance with rating requirements imposed by the *Public Funds Investment Act*; and investing operating funds primarily in shorter-term securities, money market mutual funds or similar government investment pools.

The weighted average maturity of the City and component unit investment portfolios as of September 30, 2017, is shown below.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

	<b>Weighted Average</b>	
	<b>City</b>	<b>Component Unit</b>
Fixed income:		
Municipal bonds	710	676
U.S. agencies	545	394
Investment pools:		
TexPool	1	1
Texas CLASS	1	1
Total portfolio	314	268

**Concentration of Credit Risk**

The City's investment policy recognizes invested funds shall be diversified to minimize risk resulting from over-concentration of assets in a specific maturity, specific market sector or specific instruments.

**Credit Risk**

The City's investment policy limits investments in external investment pools to pools rated as to investment quality not less than "AAA" or "AAAm" or at an equivalent rating by at least one nationally recognized rating service. Obligations of states, agencies, counties, cities and other political subdivisions of any state must be rated as to investment quality by a nationally recognized investment rating firm not less than "A" or its equivalent. The City's investments as of September 30, 2017, were rated as follows:

<b>Investment Type</b>	<b>Rating</b>	<b>Rating Agency</b>
Municipal Bonds	A+ to AAA Aa3 to AAA	Standard & Poor's Moody's Investors Service
U.S. Agencies	AA+	Standard & Poor's
TexPool	AAAm	Standard & Poor's
Texas CLASS	AAAm	Standard & Poor's

**Note 4: Receivables**

Changes in capital assets for the component unit for the year ended September 30, 2017, are summarized as follows:

Component Unit	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets, not being depreciated:				
Land	\$ 1,261,836	\$ 422,278	\$ -	\$ 1,684,114
Construction in process	1,825,989	158,819	-	1,984,808
Total capital assets, not being depreciated	<u>\$ 3,087,825</u>	<u>\$ 581,097</u>	<u>\$ 0</u>	<u>\$ 3,668,922</u>

Construction in progress and remaining commitments under related construction contracts for the component unit at year-end were as follows.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

Project Description	Project Authorization	Expended Through September 30, 2017	Remaining Commitment
Tomball Business Park and Technology Park	\$ 2,019,687	\$ 1,984,808	\$ 34,879

**Note 6: Long-term Liabilities**

The following is a summary of changes in the City's total governmental and business-type long-term liabilities for the year ended September 30, 2017. In general, the City uses the general and debt service funds to liquidate governmental long-term liabilities and enterprise funds to liquidate business-type long-term liabilities.

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities in the governmental funds. The governmental activities compensated absences, net OPEB, and net position liability are generally liquidated by the general fund. Interest on long-term debt is not accrued in governmental fund, but rather is recognized as an expenditure when due.

Governmental Activities	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due in One Year
Certificates of obligation and bonds payable	\$ 26,860,750	\$ 20,240,000	\$ 3,048,250	\$ 44,052,500	\$ 3,249,250
Unamortized discount/premium	363,694	911,687	86,470	1,188,911	86,470
	27,224,444	21,151,687	3,134,720	45,241,411	3,335,720
Capital lease obligation	731,142	-	71,123	660,019	73,463
Net OPEB obligation	773,374	194,740	94,159	873,955	-
Net pension liability	5,703,852	3,481,068	3,477,577	5,707,343	-
Compensated absences	1,445,129	684,872	521,418	1,608,583	402,146
Landfill post-closure costs	379,500	23,000	-	402,500	-
Total governmental activities long-term liabilities	\$ 36,257,441	\$ 25,535,367	\$ 7,298,997	\$ 54,493,811	\$ 3,811,329

Business-type Activities	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due in One Year
Bonds payable	\$ 3,429,250	\$ -	\$ 596,750	\$ 2,832,500	\$ 585,750
Unamortized discount/premium	58,883	-	11,776	47,107	11,776
	3,488,133	0	608,526	2,879,607	597,526

Net pension liability	1,011,509	617,325	562,014	1,066,820	-
Compensated absences	229,238	193,201	147,098	275,341	68,835
Total business-type activities long-term liabilities	\$ 4,876,189	\$ 847,618	\$ 1,335,573	\$ 4,388,234	\$ 666,361

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

Long-term debt at year-end was comprised of the following debt issues:

	<b>Interest Rates</b>	<b>Final Maturity</b>	<b>Original Issue</b>	<b>Governmental Activities</b>	<b>Business-type Activities</b>
Certificates of obligation:					
Series 2012	3-4.25%	2032	\$ 14,500,000	\$ 11,570,000	\$ -
Series 2013	2-3%	2033	8,500,000	7,155,000	-
Series 2016	3-5%	2037	20,240,000	19,440,000	-
				<u>38,165,000</u>	<u>0</u>
General obligation bonds:					
Series 2010	1.5-2.2%	2018	2,120,000	285,000	-
Series 2011	2-4%	2022	8,650,000	2,317,500	2,832,500
Series 2013	1-1.65%	2023	6,370,000	3,285,000	-
				<u>5,887,500</u>	<u>2,832,500</u>
Total bonds and certificates of obligation				<u>\$ 44,052,500</u>	<u>\$ 2,832,500</u>

Annual debt service requirements to maturity at year-end were as follows:

<b>Fiscal Year</b>	<b>Governmental Activities</b>		<b>Business-type Activities</b>	
	<b>Principal</b>	<b>Interest</b>	<b>Principal</b>	<b>Interest</b>
2018	\$ 3,249,250	\$ 1,421,566	\$ 585,750	\$ 92,909
2019	2,990,250	1,332,831	574,750	75,501
2020	3,016,250	1,239,564	563,750	55,605
2021	3,046,750	1,147,348	558,250	33,165
2022	3,080,000	1,048,748	550,000	11,000
2023-2027	11,425,000	3,930,248	-	-
2028-2032	11,855,000	1,977,688	-	-
2033-2037	5,390,000	442,175	-	-
	<u>\$ 44,052,500</u>	<u>\$ 12,540,166</u>	<u>\$ 2,832,500</u>	<u>\$ 268,180</u>

**Federal Arbitrage**

The *Tax Reform Act of 1986* instituted certain arbitrage restrictions consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed or are not performed correctly, a substantial

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

liability to the City could result. The City periodically engages an arbitrage consultant to perform the calculations in accordance with the Internal Revenue Service's rules and regulations. The City owed no arbitrage liability as of September 30, 2017.

***Obligations Under Capital Leases***

The City has entered into capital lease agreements in order to purchase machinery and equipment. The assets acquired through lease agreements are classified as follows:

	<b>Governmental Activities</b>
Asset:	
Machinery and equipment	\$ 713,570
Less accumulated depreciation	(142,714)
Total	\$ 856,284

The following is a summary of future lease payments due on this machinery and equipment:

Year Ending September 30,	<b>Lease Obligation</b>
2018	\$ 95,178
2019	95,178
2020	95,178
2021	95,178
2022	95,178
2023-2025	285,533
Total	761,423
Less interest portion	101,404
Obligations under capital leases	\$ 660,019

**Note 7: Commitments and Contingencies**

***Risk Management***

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the City participates in the Texas Municipal League's Intergovernmental Risk Pools (the Pool). The Pool purchases commercial

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

insurance at group rates for participants in the Pool. The City has no additional risk or responsibility to the Pool, outside of the payment of insurance premiums. The City has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts in the past three years.

**Contingent Liabilities**

The City is a party to various legal actions. Although the outcome is not presently determinable, it is the opinion of the City's management that resolution of these matters will not have a material adverse effect on the financial condition of the City. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated.

Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payouts, and other economic and social factors. No claim liabilities are reported at September 30, 2017.

**Note 8: Interfund Transfers**

Interfund transfers in and transfers out for the year ended September 30, 2017, are as follows:

Transfers In	Transfers Out				Total
	Governmental Funds			Proprietary Funds	
	General Fund	Capital Projects Fund	Other Governmental Funds	Enterprise Fund	
General fund	\$ -	\$ -	\$ -	\$ 2,342,169	\$ 2,342,169
Capital projects fund	1,980,000	-	323,541	3,472,643	5,776,184
Other governmental	20,000	-	-	-	20,000
	<u>\$ 2,000,000</u>	<u>\$ 0</u>	<u>\$ 323,541</u>	<u>\$ 5,814,812</u>	<u>\$ 8,138,353</u>

Transfers are primarily used to move funds from:

- The general fund to the capital projects fund to fund miscellaneous projects.
- The general fund to other governmental to fund miscellaneous projects.
- Other governmental funds to the capital projects fund to fund miscellaneous projects.
- The enterprise fund to the general fund to fund indirect costs for administrative expenses.
- The enterprise fund to the capital projects fund to fund miscellaneous projects.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

**Note 9: Pension Plan**

***Plan Description***

The City participates as one of 872 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the TMRS. TMRS is an agency created by the State of Texas and administered in accordance with the *TMRS Act*, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the system with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at [www.tmr.com](http://www.tmr.com).

All eligible employees of the City are required to participate in TMRS.

***Benefits Provided***

TMRS provides retirement, disability and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the City-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a partial lump sum distribution in an amount equal to 12, 24 or 36 monthly payments, which cannot exceed 75 percent of the member's deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows.

	<b>Plan Year 2016</b>	<b>Plan Year 2017</b>
Employee deposit rate	7.00%	7.00%
Matching ratio (city to employee)	2 to 1	2 to 1
Years required for vesting	5	5
Service requirement eligibility (expressed as age/years of service)	60/5, 0/20	60/5, 0/20
Updated service credit	100% Repeating, Transfers	100% Repeating, Transfers
Annuity increase (to retirees)	70% of CPI Repeating	70% of CPI Repeating

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

***Employees Covered by Benefit Terms***

At the December 31, 2016, valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries	
currently receiving benefits	72
Inactive employees entitled to but	
not yet receiving benefits	67
Active employees	165
Total	304

***Contributions***

The contribution rates for employees in TMRS are either 5 percent, 6 percent or 7 percent of employee gross earnings, and the City matching percentages are either 100 percent, 150 percent or 200 percent, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 7 percent of their annual gross earnings during the fiscal year. The contribution rates for the City were 13.30 percent and 13.59 percent in calendar years 2016 and 2017, respectively. The City's contributions to TMRS for the year ended September 30, 2017, were \$1,435,572, and were equal to the required contributions.

***Net Pension Liability***

The City's Net Pension Liability (NPL) was measured as of December 31, 2016, and the Total Pension Liability (TPL) used to calculate the NPL was determined by an actuarial valuation as of that date.

***Actuarial Assumptions***

The TPL in the December 31, 2016, actuarial valuation was determined using the following actuarial assumptions.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

Inflation	2.5% per year
Overall payroll growth	3.0% per year
Investment rate of return	6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109 percent and female rates multiplied by 103 percent. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109 percent and female rates multiplied by 103 percent with a three-year set-forward for both males and females. In addition, a 3 percent minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3 percent floor.

Actuarial assumptions used in the December 31, 2016, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period December 31, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013, valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2017 are summarized in the following table.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

Asset Class	Target Allocation	Long-term Expected Real Rate of Return (Arithmetic)
Domestic equity	17.50%	4.55%
International equity	17.50%	6.35%
Core fixed income	10.00%	1.00%
Non-core fixed income	20.00%	4.15%
Real return	10.00%	4.15%
Real estate	10.00%	4.75%
Absolute return	10.00%	4.00%
Private equity	5.00%	7.75%
Total	<u>100.00%</u>	

***Discount Rate***

The discount rate used to measure the TPL was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

***Changes in the NPL***

	TPL (a)	Plan Fiduciary Net Position (b)	NPL (a) - (b)
<b>Balances at January 1, 2016</b>	\$ 35,282,308	\$ 28,566,947	\$ 6,715,361
Changes for the year:			
Service cost	1,678,897	-	1,678,897
Interest	2,396,517	-	2,396,517
Difference between expected and actual experience	(109,994)	-	(109,994)
Contributions – employer	-	1,309,638	(1,309,638)
Contributions – employee	-	689,283	(689,283)
Net investment income	-	1,930,676	(1,930,676)
Benefit payments, including refunds of employee contributions	(1,235,596)	(1,235,596)	-
Administrative expenses	-	(21,804)	21,804
Other	-	(1,175)	1,175
Net changes	<u>2,729,824</u>	<u>2,671,022</u>	<u>58,802</u>
<b>Balances at December 31, 2016</b>	<u>\$ 38,012,132</u>	<u>\$ 31,237,969</u>	<u>\$ 6,774,163</u>

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

***Sensitivity of the NPL to Changes in the Discount Rate***

The following presents the net pension liability of the City, calculated using the discount rate of 6.75 percent, as well as what the City's NPL would be if it were calculated using a discount rate that is 1 percentage point lower (5.75 percent) or 1 percentage point higher (7.75 percent) than the current rate:

	<b>1% Decrease 5.75%</b>	<b>Current Single Rate Assumption 6.75%</b>	<b>1% Increase 7.75%</b>
NPL	\$ 12,620,164	\$ 6,774,163	\$ 2,048,975

***Pension Plan Fiduciary Net Position***

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained at [www.tmr.com](http://www.tmr.com).

***Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions***

For the year ended September 30, 2017, the City recognized pension expense of \$1,944,261.

At September 30, 2017, the City reported deferred outflows and inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual pension experience	\$ 95,546	\$ 121,001
Changes in actuarial assumptions	70,014	-
Difference between projected and actual investment earnings	1,279,676	-
Contributions subsequent to the measurement date	1,052,738	-
<b>Total</b>	<b>\$ 2,497,974</b>	<b>\$ 121,001</b>

\$1,052,738 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the NPL for the year ending September 30, 2018. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

**Year Ending September 30,**

2017	\$	463,420
2018		463,420
2019		406,960
2020		(8,046)
2021		(1,519)
		(1,519)
Total	\$	1,324,235

**Note 10: Post-employment Benefits Other Than Pensions**

***Plan Description***

In order to recognize and reward long-term employees, as well as to provide an incentive for remaining in the City's employment, the City administers a single-employer defined benefit OPEB plan that will pay a portion of the premium for continuation of the medical and dental insurance coverage of certain retirees. The plan is known as the City of Tomball Retirement Health Care Plan. Enrollment for retiree coverage must be completed no later than 30 days after the date of retirement. Later enrollment is not permitted. Any retiree eligible for medical coverage with another group plan shall not qualify for medical coverage with the City.

In order to be eligible for this benefit, the retiree must be vested, age 55 or older and a current recipient of retirement benefits from the TMRS, have been a full-time employee of the City for ten consecutive years immediately prior to retirement, and satisfy the applicable plan requirements for the extension of retiree coverage under the medical and dental insurance benefit plan offered by the City at the time of retirement.

Beginning with retirement and ending when the person is eligible for Medicare coverage, the City shall pay a portion of the retiree medical and dental coverage premiums in accordance with the following: 40 percent of the premium costs for retirees having at least ten years, but less than 15 years of full-time service with the City; 55 percent of the premium costs for retirees having at least 15 years, but less than 20 years of full-time service with the City; 70 percent of the premium costs for retirees having at least 20 years, but less than 25 years of full-time service with the City; or 85 percent of the premium costs for retirees having at least 25 years of full-time service with the City. To cover their spouses, eligible retirees must pay 100 percent of the cost for their eligible spouse. Eligible retirees shall pay 100 percent of the premiums for basic life insurance.

Benefit continuation of medical, dental and life insurance coverage provided at the City's expense to retirees ends when the retiree is eligible for Medicare coverage. Retirees who are eligible for Medicare coverage may, at their sole expense, continue to purchase coverage for themselves and

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

their eligible dependents as provided under the applicable terms of the City's policies. A separate post-employment benefit plan report is not available for the City of Tomball Retirement Health Care Plan.

***Funding Policy and Annual OPEB Cost***

The City has elected to finance the OPEB plan on a pay-as-you-go basis. The City paid \$112,096 in premiums related to the plan for retirees during the year.

The City's annual OPEB cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of accrual that, if paid on an ongoing basis, is projected to cover the normal cost each year and to amortize the unfunded actuarial liabilities (or funding excesses) over a period not to exceed 30 years.

The City's annual OPEB cost for the current year is as follows.

Annual required contribution	\$	245,690
Interest on net OPEB obligation		41,431
Adjustment to annual required contribution		<u>(55,287)</u>
Annual OPEB cost (expense) end of year		231,834
Contributions made		<u>(112,096)</u>
Increase in net OPEB obligation		119,738
Net OPEB – beginning of year		<u>920,683</u>
Net OPEB – end of year	\$	<u><u>1,040,421</u></u>

The City's annual OPEB cost, the amount contributed by the employer, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year ended September 30, 2017, and the preceding two fiscal years were as follows:

Fiscal Year	Annual OPEB Cost	Actual Contribution Made	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2015	\$ 236,402	\$ 85,924	36.0%	\$ 767,572
2016	234,138	81,027	35.0%	920,683
2017	231,834	112,096	48.4%	1,040,421

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

The funded status of the City's retiree health care plan, under GASB Statement No. 45 as of December 31, 2014, the most recent valuation date, is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL)(b-a)	Funded Ratio (a/b)	Annual Covered Payroll (d)	Ratio of UAAL to Annual Covered Payroll (b-a)/d
12/31/14	\$ -	\$ 1,903,327	\$ 1,903,327	\$ -	\$ 8,985,838	21.2%

Under the reporting parameters, the City's retiree health plan is 0 percent funded with an estimated actuarial accrued liability exceeding actuarial assets by \$1,903,327 at December 31, 2014. As of the most recent valuation, the ratio of the unfunded actuarial accrued liability to annual covered payroll is 21.2 percent.

**Actuarial Methods and Assumptions**

The Projected Unit Credit actuarial cost method is used to calculate the GASB ARC for the City's retiree health plan. Using the plan benefits, the present health premiums and a set of actuarial assumptions, the anticipated future payments are projected. The projected unit credit method then provides for a systematic funding for these anticipated payments. The yearly ARC is computed to cover the cost of benefits being earned by covered members, as well as to amortize a portion of the unfunded accrued liability. Projections of health benefits are based on the plan as understood by the City and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the City and the City's employees to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

Inflation rate	3.00% per annum
Investment rate of return	4.50% per annum, net of expenses
Actuarial cost method	Projected Unit Credit Cost Method
Amortization method	Level dollar
Amortization period	30-year open amortization
Payroll growth	NA
Medical trend	Initial rate of 7.25%, declining to an ultimate rate of 5.50% after 9 years

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status and the annual required contributions of the City's retiree health plan are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability of benefits.

***TMRS – Supplemental Death Benefit Fund***

**Plan Description**

The City also participates in the cost sharing multiple-employer defined benefit group term life insurance plan operated by the TMRS known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an OPEB.

**Contributions**

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The City's contributions to the TMRS SDBF for the years ended September 30, 2017, 2016 and 2015, were \$3,428, \$3,587 and \$2,821, respectively, which equaled the required contributions each year.

**Note 11: Landfill Post-closure Care Costs**

The City's municipal solid waste landfill is in the post-closure process as the landfill has been closed. State and federal laws and regulations required that the City place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site until approved for final regulatory closure by the Texas Commission on Environmental Quality.

**City of Tomball, Texas**  
**Notes to Basic Financial Statements**  
**September 30, 2017**

The estimated liability for landfill post-closure care costs of \$402,500 as of September 30, 2017, represents the remaining estimated post-closure costs required to achieve regulatory approval for closure. However, the actual cost of closure and post-closure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

Only three years of data are presented in accordance with GASB Statement No. 68 as the data for the years prior to 2015 is not available. Additionally, GASB Statement No. 68 requires that the information on this schedule be presented for the year ended as of the current measurement date (December 31).

Other information: For the 2015 valuation, inflation used was 2.5 percent, investment rates of return and the discount rate used was 6.75 percent, and actuarial studies were updated through December 31, 2014.

**City of Tomball, Texas**  
**Schedule of Contributions – Last Three Fiscal Years**

	Fiscal Year		
	2015	2016	2017
Actuarially determined contribution	\$ 1,246,735	\$ 1,285,841	\$ 1,435,572
Contributions in relation to the actuarially determined contribution	1,246,735	1,285,841	1,435,572
Contribution deficiency	\$ -	\$ -	\$ -
Covered payroll	\$ 9,404,137	\$ 9,620,867	\$ 10,481,687
Contributions as a percentage of covered employee payroll	13.26%	13.37%	13.69%

Only three years of data are presented in accordance with GASB Statement No. 68 as the data for the years prior to fiscal year 2015 is not available. Additionally, GASB Statement No. 68 requires that the information presented on this schedule correspond with the City's fiscal year (September 30).

**Valuation Date:**

Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

**Methods and Assumptions Used to Determine Contribution Rates:**

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	29 years
Asset Valuation Method	10 year smoothed market; 15% soft corridor
Inflation	2.5%
Salary Increases	3.50% to 10.5% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2015 valuation pursuant to an experience study of the period 2010 - 2014.
Mortality	RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% and projected on a fully generational basis with scale BB.

**Other Information:**

There were no benefit changes during the year.

**City of Tomball, Texas**  
**Schedule of Funding Process – Post-employment**  
**Benefits Plan Other Than Pensions**  
**September 30, 2017**

<b>Actuarial Valuation</b>	<b>Actuarial Value of Assets (a)</b>	<b>Actuarial Accrued Liability (AAL) (b)</b>	<b>Unfunded AAL (UAAL)(b-a)</b>	<b>Funded Ratio (a/b)</b>	<b>Annual Covered Payroll (d)</b>	<b>Ratio of UAAL to Annual Covered Payroll (b-a)/d</b>
12/31/14	\$ -	\$ 1,903,327	0.0%	\$ 1,903,327	\$ 8,985,838	21.2%
12/31/15	-	1,903,327	0.0%	1,903,327	8,985,838	21.2%
12/31/16	-	1,903,327	0.0%	1,903,327	8,985,838	21.2%

In accordance with GASB Statement No. 45 for plans with a total membership of fewer than 200, the City has an actuarial valuation performed at least triennially, which was performed as of December 31, 2014. Therefore, data for 2016 and 2015 is the same as 2014.

**Notes to Required Supplementary Information:**

1. Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America.

\*Expenditures exceeded appropriations at the legal level of control.

\*\*Emergency management include expenditures related to Hurricane Harvey which was not planned for in the original budget.

## **Combining and Individual Fund Statements and Schedules**

**City of Tomball, Texas**  
**Nonmajor Governmental Funds**  
**September 30, 2017**

**Special Revenue Funds**

Special revenue funds are used to account for specific revenues that are legally restricted or committed to expenditures for particular purposes.

*Special General Fund* - To account for police forfeiture funds and child safety fees.

*Housing Trust Fund* – To account for the grant funds received for Affordable Housing Initiatives and Related Services.

*Court Security Fund* - To account for fees generated from court fines which, by law, can only be spent on the City's municipal court.

*Court Technology Fund* - To account for fees generated from court fines which, by law, can only be spent on the City's municipal court.

*Hotel Occupancy Tax Fund* - To account for the accounts for revenues received from hotel occupancy taxes.

*Red Light Camera Fund* - To account for the use of revenues that, by law, are limited to traffic safety programs, including pedestrian safety programs, public safety programs, intersection improvements and traffic enforcement.

*Bunny Run Fund* - To account for the revenues generated by City sponsored races.

*Tomball Legacy Fund* - To account for private and corporate grant funds received by the City.

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.	<u>581,097</u>
