DESCRIBE WORK BEING DONE _____

NOTICE:

Separate permits are required for plumbing, heating, ventilation or air conditioning. This permit becomes null and void if work or construction authorized is not commenced within 6 months, or if construction or work is abandoned for a period of 6 months at any time after work is commenced. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel authority to violate or cancel the provisions of any other state or local law relating to construction, nor does it give authorization or approval to encroach on any easement or property or violate any deed restrictions. The City of Tomball shall never be liable for any damage or loss by reason of the issuance hereof. Each holder and other persons acting under authority of this permit are personally responsible for compliance with all the above provisions and assume the entire risks incidental to the work being permitted.

2012 IRC SMOKE ALARMS Electrical Code Reference

R314.3.1 Alterations, repairs and additions:

When alterations, repairs or additions requiring an electrical permit occur, or when one or more sleeping rooms are added or created in existing dwellings, the individual dwelling unit shall be equipped with smoke alarms located as required for new dwellings.

Exceptions:

1. Work involving the exterior surfaces of dwellings, such as the replacement of roofing or siding, or the addition or replacement of windows or doors, or the addition of a porch or deck, are exempt from the requirements of this section.
2. Installation, alteration or repairs of plumbing or mechanical systems are exempt from the requirements of this section.

R314.4 Power source:

Smoke alarms shall receive their primary power from the building wiring when such wiring is served from a commercial source, and when primary power is interrupted, shall receive power from a battery. Wiring shall be permanent and without a disconnecting switch other than those required for overcurrent protection.
